March 12, 2008 - This document endorses software proprietary to Honeywell Inc. You can work with CARE on the Excel Web Controller via modem using .NET version 3.5. However, you cannot open a CARE file in earlier versions of .NET using Microsoft's built-in file viewers. Also, you cannot export data from this document to a file using the built-in .NET exporters, because these features are not available in older versions of .NET. If you are unable to use other CARE features, please contact your equipment supplier. Please contact your hardware vendor to access this feature. fffad4f19a
