DrSuessTheLoraxmovieinhindidubbeddownloadmoviesDescription:Catan belongs to the great selection of board games from award winning designer Klaus Teuber, the #1 worldwide selling game designer and CEO of Klaus Teuber Games! Although the traditional game of Catan is characterized by its simplicity, it is also one of the best-selling and most popular board games of all time! And the new edition of Catan, now available in English, German and English for the first time ever, allows even one-player games to be played against a computer player as well as a human opponent. For two players, the game is a fast-paced, strategy game of powerful dice rolls and trade in the ports and cities of the Island of Catan. Quality: We have chosen high quality game pieces as essential for our game pieces. Both colours of game pieces are well finished and made of high quality materials. Our game pieces look nice and impress players while they can be combined with an innovative game design. Sizes: The game size is suitable for all ages and children in the age of 3 and up love to play with their fathers, grandparents and older people too! Game rules in English: Our game system and rules in English are the best combination to provide for perfect understanding and fun, while the traditional game is best played with German. If you speak other languages, feel free to translate our rules and get your game system translated for your region. If you do not speak one of these languages, please feel free to order online a three-month fun-filled, game-based language course designed for beginner level participants. If you wish to learn German, or a many other languages, we also offer special training courses. Your game is great fun while it is learning your languages. Complete board game: The complete game package includes board game, instruction booklet, dice set, rulebook, and graphic rules (German version). How to play: The game itself is simple and easy to learn, our board game does not require pre-knowledge, you can play in 2 ways: Playing against a human opponent: Each player has a set of three painted wooden or plastic game pieces and one standard deck of 60 playing cards. Players use the game pieces to claim the land by color and then to build roads, cities and hexagons. Players roll 3 dice to build and trade along the roads and then take turns ordering and trading cards (
